

HOPPE Adjustable Hinges

HOPPE Hinge

Designed for a Greater Advantage.

- Adjusts both vertically (set hinge) and horizontally (Guide Hinge) by +/- 1/8" (+/- 3mm) for a perfect swing without costly repairs or carpentry work.
- Large 3/16" hex head screws make adjustments effortless, and prevent the stripping that can occur on comparable products with Phillips head or smaller hex head adjustment screws.
- Single pass routing for quick and easy installation.
- All set hinges are equipped with non-removable pins for security, making HOPPE hinges the ideal solution for both inswing and outswing doors.
- Especially well suited for larger doors, with a panel weight capacity of up to 330 lbs.

Tested to a Higher Standard.

- Brass based hinges are third party tested beyond an impressive 2.5 million cycles, in accordance with ANSI A156.1 Grade 1 - Commercial test procedures.
- Backed by HOPPE's Limited Lifetime Mechanical Warranty.

Finished with Superior Quality

- Finished with the same proprietary methods as HOPPE Handles and backplates, providing a coordinated look that is only available with HOPPE Hinges.
- Brass and aluminum base materials for outstanding corrosion resistance, compared to steel based hinges that can yield red rust and leave doors and frames with ugly stains.
- Resista® Limited Lifetime Finish Warranty on select premium finishes (-R)
